***Theosophy Explained* by Pestanji T. Pavri**

Theosophy is the wisdom underlying all religions when they are stripped of accretions and superstitions. It offers a philosophy which renders life intelligible and demonstrates that justice and love guide the cosmos. Its teachings aid the unfoldment of the latent spiritual nature in the human being, without dependence or fear.

Pestanji T. Pavri, Professor of Mathematics, an engineer by profession, and a theosophist. In this book, Pestanji presents a variety of theosophical subjects such as evolution and mans place in the universe in the form of Questions and Answers. The book has been very popular and continuously in print since the beginning of this century. It is readable but is also a valuable reference book.
