LECTURE ▷ SPIRITUAL UNFOLDMENT AND THE CHALLENGES OF LIFE

Doors open at 6:30 p.m. Program begin promptly at 7:00 p.m.

One of the main effects of a genuine association with the Ageless Wisdom is that it hastens the process of spiritual unfoldment. While this internal growth is not without its own challenges and discomforts, it does seem to confer a deepening capacity to meaningfully engage with the variety of challenges we face in the world. What are the stages of unfoldment, and how can we direct our heightened awareness toward life's problems?

SATURDAY, APRIL 29, 2017

(Breakfast Snacks 8:30-10 a.m.) Lecture - 9:00 a.m.- 12:00 p.m.

LECTURE ▷ HEALING AND THE HEALER

Most people feel that the role of Healer is reserved for a gifted few. The capacity to heal is inherent in all, awakened in some, and trained in a very few. More than a science, greater than an art, healing and the intention to heal opens the door to our potential to be fully human. It is a science that demands the participation of the deeper dimensions of our being - a Science of the Heart.

Tim currently serves as president of the Theosophical Society in America and as international president. He is director for a number of theosophical organizations and editor of two magazines. He is a founding member of a spiritual community which was active in Chicago for more than 25 years. The group worked with troubled youth, taught meditation and healing methods, established organic food gardens on vacant lots, purchased and renovated numerous residential buildings in the area, and placed bee hives on the roofs of buildings. His involvement with the Theosophical Order of Service and the Chushul orphanage in Tibet led to an audience with the Dalai Lama which resulted in the TSA sponsoring his visit to Chicago in July of 2011 for a two-day event attended by ten-thousand people. He speaks and conducts workshops around the world.
